INNOVATION FESTIVAL 2025

August 12, 2025 | Overland Park Convention Center

<https://biokansas.org/events/innovationfestival/>

Innovation Festival is a **one-day scientific conference** that brings together a vast array of **students, professionals, life science experts, and more**. Conference content will showcase and **explore the opportunities, challenges, resources, and innovations** that exist in the Kansas and broader Midwest bioscience ecosystem.

Anyone may register to attend Innovation Festival. [REGISTER HERE](#)

The STEAM Gallery at Innovation Festival

<https://biokansas.org/events/innovationfestival/gallery/>

The **STEAM Gallery** at Innovation Festival showcases scientific posters submitted by scientists and academics alongside artwork from regional visual artists. The gallery aims to **highlight the close relationship between the arts and sciences**; the intention is for conference attendees to engage with and draw inspiration from this collaborative gallery experience.

Artists and creatives that have **worked at the intersection of arts and sciences are encouraged to apply**. Two-dimensional and three-dimensional works will be considered. Artists are encouraged to attend the conference to make connections with fellow conference attendees and sell their art if they so desire.

ARTIST APPLICATION

Deadline to submit: June 1, 2025

- Selected artists will receive free registration to the conference and have the opportunity to sell work (artists will handle sales directly).
- Guidelines and criteria for submissions as well as a STEAM Gallery FAQ can be found here: <https://biokansas.org/events/innovationfestival/gallery/>

Questions related to the Innovation Festival, the STEAM Gallery, and artwork submissions can be directed to communications@biokansas.org.
